Light Up Thomaston

Minutes Meeting October 19, 2016

Present: James and Maureen Wilkas, Armand Roy, Steve Lattimer, Tom, Sarah and Lindsay LeVasseur, Jennifer Nolan, Karen Lamy, Camden Vadney

We went over the present status of the lights. We also went over the statis of who had given permission to change plug locations. So far the only place that gave us a problem was Midtown Auto Parts. Tom advised that he had spoken with Heather with respect to the Morris building. He advised her that the fire department usually serviced that building. As the department's ladder truck was not functional, they would not be able to remove the lights from the building. Maureen advised that Lyons Funeral Home would like lights on its peak.

Karen reported that she had started the IGA fundraiser. Maureen reported that funds had started to come in as a result of the business fundraiser letters.

We discussed the need for float storage. Maureen was going to check with Tina as to whether her brother had any space available.

Maureen reported that the fire department women's auxiliary was doing popcorn balls and cider. Maureen is going to check with TSB to see what they might be doing. Karen will then see how many popcorn balls the auxiliary has. We agreed we might purchase the ones from LaBonne's to supplement what they had if need be.

We went over everything that has been done to date for Light Up. Maureen passed out a list of tasks tat still needed to be done. We decided that we would review it and then come back next week with any changes, additions or subtractions.

The meeting was adjourned at 8:15.

Respectfully submitted,

Maureen Wilkas, Acting Secretary
